GENERAL USE & CARE GUIDE

CRAFT acrylic sheets are manufactured with aesthetics and durability in mind. When used as recommended and with appropriate care, our laminates will last through the years. **CRAFT** acrylic sheets are easy to maintain.

LAMINATES

- Cleaning Should be done with water and a clean, non-abrasive cloth.
- To remove more stubborn stains, use mild household cleansers like colin IP gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminate.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30° degree Celsius may cause damage to the laminate surface.
- Do not use the laminate for purposes that it is not intended for (E.g. do not iron, chop, hammer or expose the laminate to open flame.)
- Outdoor application of the laminate with exposure to direct sunlight and weather conditions are strict not recommended.
- UV rays may deshape the laminate.
- Gloss surfaces are recommended only for vertical application.
- Do not use thinner and loluene on the surface of the **CRAFT** acrylic sheet. this may cause decourisation of the surface.
- Store the laminates at temperature below 30° degree celsius.
- Typically confirm to internationally recognize technical standards.
- Have a thickness balance of +/- 10%
- Peel off the protective film after processing.

Shake it well and lightly spray on the surface

Wipe the surface clean using a light circular motion
